THAT'S *VERY*  
ODD INDEED!

ACCORDING TO THE TARDIS,  
I *SHOULD* BE AT BAZ'S  
EASY DINER ON THE EASTERN  
DESERT OF AGRELLIAN  
THAXIS, IT *SHOULD* BE THE  
MIDDLE OF THE DAY...

...AND THERE DEFINITELY  
*SHOULDN'T* BE ANY  
TIME LORD-EATING  
PLANTS AROUND!

THE LIGHT  
IS AFFECTING  
THE PLANTS  
SOMEHOW! GOT  
TO TURN IT OFF!

I'M THE DOCTOR  
AND I'VE COME TO  
DO A SURPRISE  
INSPECTION.

PSYCHIC  
PAPER.  
NEVER  
FAILS!

I WASN'T  
INFORMED  
ABOUT ANY  
INSPECTION.

NEED TO KNOW!  
NEED TO KNOW!

SO, WHAT  
EXACTLY IS IT  
YOU ARE DOING  
HERE?

I'M NOT A  
TOUR GUIDE!  
PROFESSOR FLYNT,  
PERHAPS YOU CAN  
EXPLAIN TO THE  
DOCTOR...

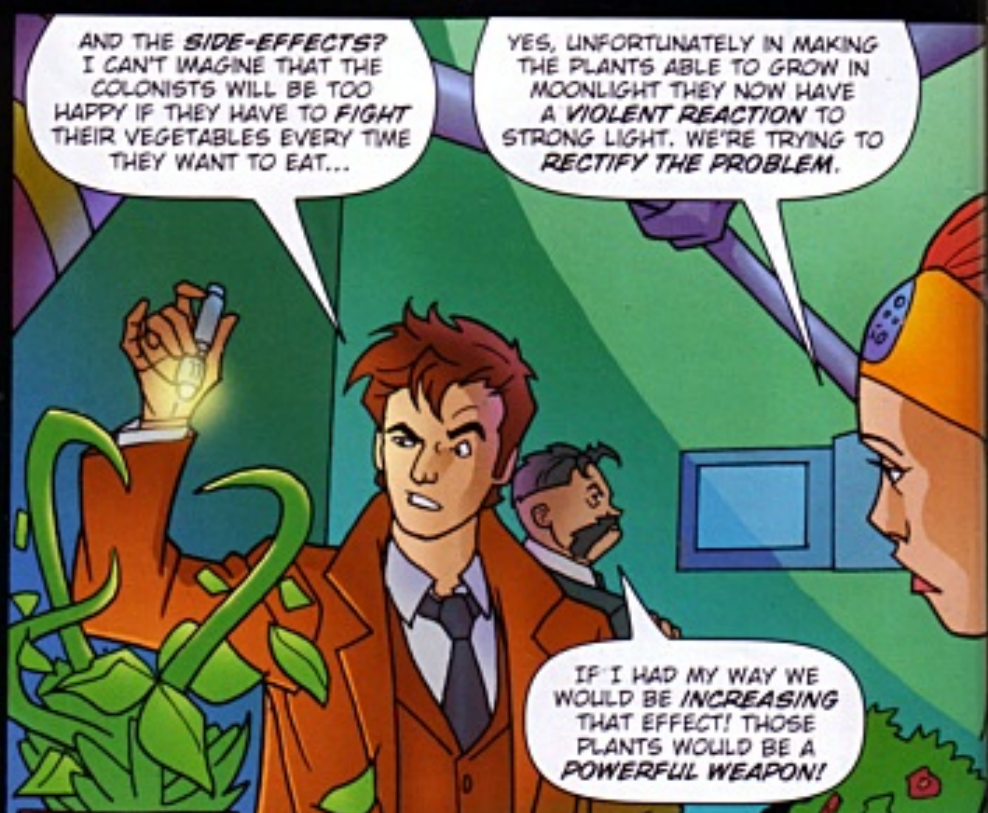

COME TO SEE WHAT  
WE'RE UP TO, EH,  
DOCTOR? I GATHER  
OUR FRIENDS IN THE  
GREENHOUSE GAVE YOU  
QUITE A SHOCK!

LIVELY WHEN THEY  
GET A BIT OF SUN,  
AREN'T THEY?

THEY'RE OUR PROUDEST  
ACHIEVEMENT. CROPS  
THAT CAN GROW WITH THE  
FAINTEST HINT OF LIGHT.

"IT WILL REVOLUTIONISE THE LIVES  
OF THE COLONISTS ON THE OUTER  
RIM. ALLOW US TO PUSH EVER FURTHER  
OUT WITH OUR EXPLORATION TEAMS."

AND THE SIDE-EFFECTS?  
I CAN'T IMAGINE THAT THE  
COLONISTS WILL BE TOO  
HAPPY IF THEY HAVE TO FIGHT  
THEIR VEGETABLES EVERY TIME  
THEY WANT TO EAT...

YES, UNFORTUNATELY IN MAKING  
THE PLANTS ABLE TO GROW IN  
MOONLIGHT THEY NOW HAVE  
A VIOLENT REACTION TO  
STRONG LIGHT. WE'RE TRYING TO  
RECTIFY THE PROBLEM.

IF I HAD MY WAY WE  
WOULD BE INCREASING  
THAT EFFECT! THOSE  
PLANTS WOULD BE A  
POWERFUL WEAPON!

AS I KEEP TELLING YOU, PROFESSOR, WE'RE A **CIVILIAN RESEARCH TEAM**, WE HAVE NO INTEREST IN **MILITARY AIMS**!

PAH! WE COULD BE MAKING A **FORTUNE**!

I'M NOT SURE OUR PROFESSOR IS AN **ALTOGETHER HAPPY BUNNY**!

PROFESSOR BRASK THINKS THAT THERE IS MORE MONEY TO BE MADE OUT OF **WEAPONS** THAN CROPS!

HERE, DOCTOR, LOOK AT THESE READINGS.

HM. HAVE YOU TRIED **REVERSE SPECTRUM THERAPY**?

FOOLS! THEY DON'T UNDERSTAND WHAT THEY HAVE CREATED HERE! BY TOMORROW I'LL BE **RICHER** THAN THEY CAN POSSIBLY IMAGINE!

WARNING. WARNING. **SECURE CONTAINMENT BREACHED. AWWWK!**

OUT OF MY WAY, ROBOT!

WHAT DOES HE THINK HE'S DOING? HE'LL NEVER GET OFF THE STATION!

**SLAAMMM!**

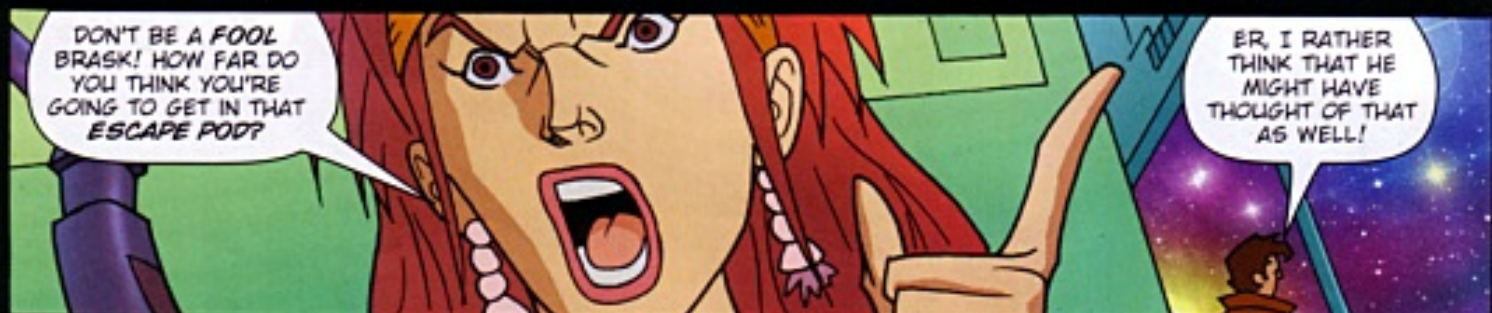

HE'S ACTIVATED THE **SECURITY DOORS**!

LAUNCH IN FIVE, FOUR, THREE, TWO...

I THINK HE MAY HAVE **THOUGHT** OF THAT!

ESCAPE POD **ACTIVATED**

DANGER. SPACE  
STATION NO LONGER IN  
GEOSTATIONARY ORBIT.

WE'VE LOST ALL  
POWER TO THE  
MOTORS!

PLEASE RE-ENGAGE  
AUTO PILOT

HE'S FROZEN  
OUT ALL OF THE  
CONTROLS EXCEPT  
LIFE SUPPORT!

BUT IF THE PLANTS  
ARE EXPOSED TO  
DIRECT SUNLIGHT...

I KNOW! THINGS  
COULD GET  
DANGEROUS!

VERY  
DANGEROUS  
INDEED!

EEEEEEEEOOOOOWWWWWW!  
DON'T MISS PART TWO  
IN THE NEXT ISSUE!
